StandGuard®

Pour-On Insecticide

Product Summary

StandGuard Pour-On Insecticide is an ideal horn fly and lice control solution that is powerful, low-dose, and easy-to-use.

- **EFFECTIVE:** StandGuard Pour-On Insecticide is a potent pyrethroid, offering effective quick-kill action to manage horn flies and lice on all classes of beef cattle.¹
- **INNOVATIVE:** StandGuard Pour-On Insecticide contains gamma-cyhalothrin for control of horn fly and lice on beef cattle and calves.
- **CONVENIENT AND READY-TO-USE:** No dilution is necessary. StandGuard Pour-On Insecticide is available in 16 fl oz (473 mL) and 30 fl oz (900 mL) bottles with an easy squeeze-and-pour design ideal for smaller treatment groups. StandGuard Pour-On Insecticide is also available in 4.5 L size, which is more convenient for large operations.

Pesticide Guidelines and Label Directions

- **INDICATIONS:** For control of lice and horn flies on beef cattle and calves, offering season-long control of lice with a single application.
- **DIRECTIONS:** No dilution necessary. Apply along topline of animal from poll to tailhead. Do not apply to lactating or dry dairy cows. Do not apply this product to the face of beef cattle and calves. For horn flies, repeat treatment as needed; however, do not apply more than once every two weeks and do not apply more than four times within a 6-month period.
- **STORAGE:** Store in original container, tightly closed, in a secure place. Shake well before use. Avoid freezing.

Please see entire product label and follow all use directions, use restrictions, and precautions. Use only for the sites and application methods described on the product label. It is a violation of Federal law to use this product or products in a manner inconsistent with its labeling.

PROZAP[®] **PROTECTUS**[™] POUR-ON INSECTICIDE - IGR

Product Summary

Prozap Protectus Pour-On Insecticide — IGR is a triple active formula for use on beef cattle and calves that kills chewing and sucking lice, ticks*, horn flies, stable flies, horse and deer flies.

A unique combination of actives includes an insect growth regulator (IGR), adulticide, and a synergist that provide cattle relief from infestations and producers a reliable solution that helps minimize handling, time, and labor costs. The addition of the insect growth regulator, diflubenzuron, kills louse eggs before they hatch, providing season-long control of lice in one application.

Contains 3% diflubenzuron, 2.5% piperonyl butoxide, and 0.5% lambda-cyhalothrin.

- Ready-To-Use as a Pour-On
- Kills chewing and sucking lice, ticks*, horn flies, stable flies, horse and deer flies on beef cattle and calves
- Kills louse eggs before they hatch
- Season-long control of lice

Pesticide Guidelines and Label Directions

- **INDICATIONS:** A triple active formula for use on beef cattle and calves that kills chewing and sucking lice, horn flies, stable flies, horse and deer flies.
- **DIRECTIONS FOR POUR-ON APPLICATIONS:** No dilution necessary. Do not apply more than once to any one animal every two weeks. In addition, do not apply more than four applications in any 6-month interval. Only beef cattle and calves may be treated with Prozap Protectus Pour-On Insecticide — IGR. Apply 0.1 fl oz (3 mL) of Prozap Protectus Pour-On Insecticide — IGR per 100 lbs body wt of cattle. This is equivalent to 1 fl oz (30 mL) per 1,000 lb animal. Pour correct dose along back directly from tip and measure container, graduated applicator gun, or ladle/dipper. Keep away from eyes and mucous membranes of the animal being treated. Prozap Protectus Pour-On Insecticide — IGR is not recommended for use on veal calves.
- **DIRECTIONS FOR SPRAY DILUTION APPLICATIONS:** Do not apply more than once to any one animal every two weeks. In addition, do not apply more than four applications in any 6-month interval. Only beef cattle and calves may be treated with Prozap Protectus Pour-On Insecticide — IGR. Dilute 4 fl oz (118.3 mL) (0.0069 lb of diflubenzuron, 0.0058 lb of piperonyl butoxide and 0.0012 lb of lambda-cyhalothrin) of Prozap Protectus Pour-On Insecticide — IGR per gallon of water. Spray until wet, ensuring thorough coverage across entire body, targeting 1 quart of diluted spray per 1,000 lb animal. Ticks must be sprayed directly to be killed. Keep away from eyes and mucous membranes of the animal being treated. Prozap Protectus Pour-On Insecticide — IGR is not recommended for use on veal calves.
- **STORAGE:** Store in a cool, dry, and secure area. Store in original sealed container away from food or feed.

Please see entire product label and follow all use directions, use restrictions, and precautions. Use only for the sites and application methods described on the product label. It is a violation of Federal law to use this product or products in a manner inconsistent with its labeling.

*Kills ticks by direct spray dilution application.

PROZAP
Gamma-Defense™
 CONTROLLED RELEASE
 PREMISE INSECTICIDE

Product Summary

Prozap Gamma-Defense Controlled Release Premise Insecticide is a micro-encapsulated insecticide for use in and around livestock/poultry housing, buildings, and structures for the control of litter beetles, flies, fleas, and ticks.

EFFECTIVE – Prozap Gamma-Defense Controlled Release Premise Insecticide is formulated with the pyrethroid Gamma-cyhalothrin.

ECONOMICAL – Highly concentrated; one quart treats up to 48,000 square feet when treating for litter beetles and can be applied in 21-day intervals.

INDUSTRY PROVEN – Effective against adults and immature darkling, hide, and carrion beetles.

CONVENIENT – Premise spray can be used on entire footing, crack and crevice, or banded applications.

VERSATILE – Use Prozap Gamma-Defense Controlled Release Premise Insecticide within poultry housing structures at clean-out or in-between flocks and/or as a perimeter/ barrier treatment outdoors.

Pesticide Guidelines and Label Directions

- **INDICATIONS:** A premise and perimeter pest control for livestock/poultry housing structures and pet kennels, outdoor surfaces, and perimeters, for the control of litter beetles, flies, fleas, ticks, and other insects as listed on the label.
- **DIRECTIONS:** Dilute the concentrate per application directions on the label, spray as directed.
- **STORAGE:** Store in original container only. Keep container closed when not in use. Do not store near food or feed. Do not store near heat or open flame. Do not allow product to freeze.

Please see entire product label and follow all use directions, use restrictions, and precautions. Use only for the sites and application methods described on the product label. It is a violation of Federal law to use this product or products in a manner inconsistent with its labeling.
